SUMMARY

Software Development student at Seneca Polytechnic and IT Analyst at the Canada Revenue Agency, with hands-on experience in software development, web technologies, and technical problem-solving. Experienced with React.js, Next.js, Node.js, Flask, Python, C++, MongoDB, and PostgreSQL through academic and team-based projects. Currently gaining professional experience at CRA while continuing to develop strong technical, analytical, and problem-solving skills. Hackathon finalist and President's Honour List recipient with a passion for building practical and impactful software solutions.

EDUCATION

Seneca Polytechnic

Honours Bachelor of Technology – Software Development

Class of 2027

Staffordshire University

Certificate of Higher Education in Software Engineering – Software Engineering

Class of 2023

WORK EXPERIENCE

Canada Revenue Agency (CRA)

IT Analyst

Toronto, ON

Sep 2026 - Present

- Troubleshoot hardware, software, and system-related issues in a government environment.
- Analyze technical issues, identify solutions, and document work accurately using internal systems and processes.
- Collaborate with team members to resolve technical issues efficiently while maintaining a high standard of service.

IT Analyst Co-op

May 2026 - Sep 2026

- Investigated and resolved technical issues while gaining hands-on experience with enterprise IT systems and processes.
- Used troubleshooting and problem-solving skills to diagnose issues and determine appropriate solutions.
- Documented technical work and maintained accurate records while following established procedures.

PROJECTS

ReText | React.js, Flask, PostgreSQL, JWT, CSS Modules

Jan 2025 – Apr 2025

- Designed and developed a full-stack web platform for students to buy and sell used textbooks within their college community.
- Utilized React.js with React Router for the front end and Flask with SQLAlchemy/PostgreSQL for the backend, integrating JWT-based authentication with college email validation.
- Led the implementation of core features including course-code search, seller profile pages with star ratings, and secure user login.
